**Company information**

Dear Sir / Madam,

Thank you for your time. In order for you to really familiarise yourself with our company and the services we offer, we aimed to be as clear and concise as possible when drafting this document.

„SZKÓK ÉS FIA” Kft. in its present form has been operating since 2007, however, it started its cleaning business in 1998. Our company always determines the required tasks and creates its prices in accordance with our partners' expectations. Due to recent dynamic development, cleaning and lawn mowing now play a significant role in the company's activities. Presently, the cleaning and lawn mowing services used by our partners are determining in the company's income. The development is due to the allocation of appropriate human resources and continuous technological developments. It is our philosophy that the reliable and accurate team performs its work efficiently according to the needs of its partners. Regular monitoring provides long-term, smooth cooperation for our partners.

The question may rightly arise: how are we different from the dozens of other companies which perform similar activities?

The greatest difference is that we do not try to mould you to the solution considered best by ourselves, but we try to find the most suitable possible solution for you, since the solution should fit you and not the other way around...

We do not aim to base our activity on one-off, high value orders; rather we would much prefer to support you for the long-term through becoming fully accustomed to your needs.

We believe that long-term business relationships are based on integrity, this being the basis for trust, which can serve as the pledge of truly lasting cooperation.

---

Yours faithfully,
